Tom,

The BLM has reviewed Denison's February 3, 2012 proposed minor modification of the Daneros Plan of Operations (Plan) for drainage improvements and revised access route onto existing development rock stockpile. BLM determined that the modification does not constitute a substantive change to the Plan and that the minor modification, as proposed, will not require escalation of the reclamation surety. Therefore, the BLM will accept the minor modification without formal approval pursuant to 43 CFR 3809.432 (b).
